Prinsonroyal1@gmail.com | prinson.is-a.dev | [PRN-6](#) | prinson-nazareth

PROFESSIONAL SUMMARY

Motivated Master of Computer Applications (MCA) student with a strong foundation in software development, full-stack web development, and artificial intelligence. Skilled in Python, JavaScript, React.js, Node.js, Express.js, and MongoDB, with hands-on experience developing web applications and Python-based AI and automation solutions. Interested in building privacy-focused, scalable software and practical automation tools using modern technologies. Strong problem-solving mindset with a passion for learning, exploring new technologies, and developing real-world applications

PROJECTS

prinson.is-a.dev

PRIVACY68 | Python, Faster-Whisper, PyTorch, SoundDevice, ONNX, TF-IDF, PyAutoGUI - [LINK](#)

Sep. 2026 - Present

A Built an offline-first AI voice assistant designed to automate desktop tasks through natural voice commands while keeping speech processing local and privacy-focused.

- Developed a real-time voice pipeline using microphone capture, Voice Activity Detection(VAD), and Faster-Whisper for local speech-to-text transcription
- Implemented a dual-lane command routing architecture, using lightweight intent matching for fast commands and an LLM-based agent path for more complex requests
- Designed a modular plugin/skill architecture for extending NOVA with desktop automation and application-specific capabilities without modifying the core system.

AJ -ASTRIX | College Fest Website | React.js, Vite, Tailwind CSS- [LINK](#)

Apr. 2026

Developed an interactive and responsive college fest website for AJ-ASTRIX 2026 with event information, schedules, and participant-focused interface

- Built reusable React components and modern UI interactions using Tailwind CSS, Three.js, React Three Fiber, GSAP, and Lucide.
- Implemented responsive layouts and animated visual elements to create an engaging experience across desktop and mobile devices.

Personal Portfolio Website | React.js, Vite, Tailwind CSS- [LINK](#)

Feb.2026

Designed and developed a personal portfolio website to showcase projects, technical skills, experience, and achievements.

- Organized project and profile information into a structured user experience optimized for desktop and mobile devices.

FORMAL EDUCATION

Samvedana Science And Commerce First Grade College

- Bachelor of computer applications (BCA)

SKILLS

Languages: Python, Java, JavaScript, HTML, CSS

DevOps Tools: Linux, GitHub Actions

Tools/Frameworks: React, Postman, Git

Databases: MongoDB

Specializations: Backend Web Development, DevOps
